

Apple Teacher

What Is It?

The Apple Teacher Program provides teachers with easy to follow guides for learning how to incorporate Apple's built in apps, Pages, Keynote, Numbers, iMovie and GarageBand, into instruction.

Where Do I Go?

You can sign in using your Apple ID and find all of the resources and activities at:

<https://appleteacher.apple.com>

Become an Apple Teacher

To complete the program and get your certificate you must earn badges. You can complete any of the sections you wish, but the main one for our district would be the **“Badges for iPad”** section. In here you will learn some basic skills focused on using the iPad to its fullest.

*Each badge you earn will give you **45 min** of PD credit. Completing the iPad Program is worth **6 hrs** of PD credit.*

Other Lessons & Badges

A new section called “New Skills for iPad” has some great tutorials on utilizing new features built into the iPad.

Going Further

Apple adds new features and lesson ideas to the site regularly. Some great examples are in the sections;

- Explore New Classroom Ideas
- Learning Resources for Teachers

Everyone Can Create Program

This is a new program from Apple that is geared around creation activities using the iPad. There are entire books focused on 4 key areas; Video, Music, Photo and Drawing. What's even better, there are teacher guides to help you in the process!!
