

Become A Certified Microsoft Innovative Educator

Microsoft
Innovative Educator

Microsoft Educator Center is a place to learn and explore training and resources, and earn badges and certifications on a personalized hub created for educators.

Explore courses

Learn how to use Microsoft technology in your classroom in effective and engaging ways while also earning professional development hours.

Explore learning paths

Focus on skill development or master Microsoft products in a learning path, a collection of courses for deeper learning in a topic.

View your achievements

See the badges and points you've earned in your profile. You can also share your training transcript to document your learning to others.

Connect with Microsoft EDU

Keep up with the latest training and resources. Subscribe to the MEC newsletter to stay in the know.
